THE LIBIS GARDENS

Specializing in Bulbs for "Better Glads"

The GLADIOLUS

The most Charming and Stately Flower.

"To know them is to love them"

Every garden should have a planting of this flower of easy culture.

Our *gladiolus* stock consists of healthy, vigorous bulbs of select varieties.

Each year varieties are eliminated which seem the least interesting to visitors, and are no longer worth while; each year some of the better, newer sorts are added. Thus the desirability of varieties is constantly subject to popular approval, and is constantly attaining a higher excellence.

Our stocks are inspected by the Ohio State Department of Agriculture. We hold a certificate of nursery inspection issued by that Department.

All bulbs offered for sale are treated to assure freedom from possible thrips infestation.

Sizes—*Large* bulbs are 1¼ inches or more in diameter; *Medium* bulbs are ¾ to 1¼ inches; and *Small* bulbs are from ⅜ to ¾ inches.

TERMS OF SALE

Gladiolus orders are usually shipped during March and April, being somewhat governed by weather conditions; Dahlias, Lily bulbs and Chrysanthemums, during April and May.

Orders of \$1 or over are shipped prepaid. We guarantee their safe arrival and satisfactory condition. Orders of less than \$1 should include 15 cents for postage.

All stock is guaranteed true to name. We shall gladly replace anything found to be otherwise, or correct any error, to the extent of the price paid.

All stock is subject to prior sale.

Remittance should accompany your order, unless other arrangements are made. Make your remittance payable to

AMERICAN GLADIOLUS SOCIETY

OHIO STATE GLADIOLUS SOCIETY

We wish to call your attention to the following varieties among our recent introductions which are particularly popular with our customers: *Matin Song*, a cameo pink; *Coral Reef*, a deep geranium pink with very large flower heads; *Elizabeth Libis*, an early blooming orchid lavender, large flowers, tall graceful spikes; *Idabelle Firestone*, an excellent exhibition and commercial lavender; *Reminiscence*, a mid-season orchid; *Rose Gold*, the kind that harmonizes well with autumn shades.

Prominent florists are enthusiastic in praising the above varieties.

Visitors to our gardens are delighted by the wonderful blooms. The news spreads. Many visitors come. An artist asks permission to paint the picture. Again the news spreads—and on a mid-September day several artists transfer to canvas the field of blooms.

You may have the pleasure of these wonderful flowers in *your* garden. Peruse the pages of this booklet, and you will find listed all the flowers that delight the visitors, and the artists who paint the picture.

One of our Ohio State Prize Displays

THE GLADIOLUS

HARDY PERENNIALS

DESCRIPTIVE PRICE LIST

LILIES -- The Regal Lily

The Regal Lily is one of the most reliable of the hardy varieties and may be planted with confidence for a garden of lilies.

The trumpet shaped flowers are white, with a canary yellow throat; the reverse of the petals is tinted with pink or a rich maroon red in varying degrees of color.

The Regal Lily produces an abundance of pleasing fragrance, both in or out of doors; altogether the most outstanding hardy lily.

It is a profuse bloomer when well established, commonly with eight to twelve flowers on a stem, sometimes twenty-four or more. The height of the lily is from three to five feet. Its blooming season begins in late June or early July.

All in all, we wish to emphasize the hardiness, the reliability of blooming and the exquisite beauty of the Regal Lily, a truly *Regal* flower.

PRICES

Bulbs 4 to 6 inches.....	each	\$.15
Bulbs 4 to 6 inches.....	doz.	1.00
Bulbs 6 to 9 inches.....	each	.25

CHRYSANTHEMUMS - Hardy Garden Varieties

The hardy chrysanthemum is finding more favor each year with those who want an uninterrupted line of flowers, for its various varieties bloom from early October till late November, enduring light frosts and snows.

Alice Howel A rich shade of orange yellow, single blossoms; medium height and mid season.

- Aladdin Terra cotta, coppery bronze, or pinkish orange bronze, blooming continuously from August on. (Each 25c).
- Argenteuillais Scarlet bronze flowers tipped with gold, 2½ inches; late October.
- Bronze Button A button type, very free blooming, dark bronze colored flowers.
- Brune Poitevine Reddish bronze, the reverse of petals golden. October.
- Boston Bronze orange flowers on tall stems; blooms 2½ in.; Early November.
- Baby Marguerite Clear light yellow button; very good tall stems; Early November.
- Carrie Shaggy flowers in clusters of clear light yellow. Very early.
- Cora Peck Buhl Golden yellow pompom, with tinge of bronze in center; mid season.
- Captain Cook Early rose pink pompom, tall strong grower. Extra, for cutting.
- Excelsior Excellent bloomer or brilliant yellow on tall strong stems. Early November.
- Fern Ridge Tall bright red, single like a daisy. Early November.
- Firebird Very bright red pompom of strong growth. November.
- Glory of Seven Oaks Not tall but an early bloomer of golden yellow. Popular.
- Mrs. H. Harrison Pompom, excellent profuse bloomer of dainty blush pink. Early.
- Mrs. Frances H. Bergen Large pale pink flowers with deep pink centers. Flowers 3½ inches. One of the finest and most vigorous.
- Mrs. Phillips Single daisy like pink flowers, yellow centers. 3 in. blooms.
- Mitzi Free flowering. Button type, blossoms open bronze changing to yellow.
- Ouray A strong growing pompom of medium size flowers, a very attractive bronze.
- Old Fashioned Yellow Tall growing pure golden yellow, attractive shaggy blooms.
- Old Fashioned Rose One of the most reliable and hardiest mums, shaggy, large, semi-single blooms of American beauty rose color. Extra good cut variety.
- Pink Doty Clear deep pink. Early November.
- Petite Louise Pale pink, large shaggy flowers, early, free blooming.
- White Doty Tall growing pure white pompom. The clusters of white flowers are borne on long, strong stems, making an excellent cut flower variety.
- White Button A tall growing, profuse bloomer of white, button type blooms.
- PRICE: Plants each 15c; doz., \$1.50, except where noted.

Veronica Longifolia Subsessilis, large clumps25
Viola Jersey Jem15
Viola Sutton's Apricot15
Peonies - sold in late Autumn, varieties and prices given if requested.	

BULB AND PLANT TREATMENT

The best general treatment of gladiolus bulbs for disease cure and prevention is the treatment with Mercuric Chloride (Corrosive Sublimate) solution. This treatment will kill thrips and thrip eggs, as well as the spores of fungous diseases. Soak the bulbs at least 7 hours (or over night) in the solution, 1 oz. to 7½ gallons water, preferably not under 60 degrees. Wet treatment should not be done till just before planting. The bulbs may be planted wet.

For spraying the growing stock for thrips or other insects, we recommend ROTO-TOX. This is both a stomach and contact poison—non-poisonous to people or animals—a complete spray requiring only dilution with water. The various dilutions range from 1 to 200 parts of water to 1 to 800 parts water. You can get ROTOTOX promptly by parcel post, at following prices (subject to change); 1 oz. 35c; 1 pt. \$1.75; 1 qt. \$3.00; 1 gal. \$10.00; from The East Williston Distributing Co., 81-L Yale St., East Williston, Long Island, N. Y.

GLADIOLUS SOCIETIES

You may join the American Gladiolus Society. Membership fee of \$2.00 yearly includes the Gladiolus Review, a monthly publication devoted exclusively to the interests of those who grow gladiolus. Send membership fee to Roscoe Huff, Secretary, Goshen, Indiana.

You may join the Ohio State Gladiolus Society. Membership fee \$2.00 yearly includes affiliated membership in the American Gladiolus Society and the Gladiolus Review. Send fee to Mrs. Carl Defendeifer, Secretary, 33 Lyons Boulevard, Struthers, Ohio.
